ARUSH RAI

arushrai arushrai007

7355049253
arushrai007@gmail.com

Skill

- **Languages**: Python, C/C++, Java (Basic)
- **Frameworks & Libraries**: Django, MERN(React.js, Node.js (basic)), HTML, CSS, Bootstrap, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
- **Databases**: MySQL, SQLite, MongoDB (basic)
- **Tools & Platforms**: Git, Docker (familiar), AWS (basic), VS Code, Github, Power BI
- **Concepts**: Object-Oriented Programming (OOP), REST APIs, Web Development, Software Design, Data Structures and Algorithms

Experience

Chief Technology Officer (CTO)
IGNITE | Jan 2024 – Current

- Lead and coordinate all technical operations, including project planning and execution.
- Collaborate with teams to develop innovative tech solutions for university-wide.
- Maintained and improved the club website

Projects

Job Jugaad - AI-Based Job Recommendation Web Platform
Tools: Django, React, AWS, Docker, PostgreSQL, NLP, Web Scraping

- Built a job aggregator platform that scrapes openings and recommends opportunities using keyword matching
- Built end-to-end web application integrating frontend, backend, and ML model.
- Implemented an ATS resume scanner to generate a Job-Match Score, highlighting missing
- keywords. Designed scalable backend with microservices architecture and deployed using Vercel and Render.
- Impact: Reduced job search time for users by improving job-role matching efficiency.

AI Travel Companion Chatbot
Tools: Python, Streamlit, OpenAI API, Natural Language Processing (NLP)

- Developed an AI chatbot using Streamlit and OpenAI API to provide personalized travel recommendations and weather updates.
- Created a user-friendly interface and deployed the chatbot as a real-time web application.

Netflix Clone
Tools: React.js, Node.js, Firebase, TMDB API

- Developed a responsive, single-page Netflix clone using React.js fetching movie data from the TMDB API.
- Implemented Firebase Authentication and Firestore for user management.
- Created a dynamic UI/UX with movie-trailer-player and categorized content carousels.

Task Management App
Tools: Django, SQLite, HTML, CSS

- Designed a full-stack CRUD web app for task management.
- Implemented user authentication and role-based access.

Cultural & Heritage Website of India (FastAPI & React.js Project)
Tools: FastAPI, Python, React.js, HTML, CSS, JavaScript, (MongoDB)

- Designed a homepage featuring an interactive political map of India; clicking on any state opens a dedicated page displaying details such as traditional food, dance forms, monuments, history, and local art.
- Built RESTful APIs using FastAPI (Python) for backend logic and data delivery, integrated seamlessly with a React.js frontend for dynamic rendering and user interaction.
- Implemented a responsive and engaging UI using React.js, HTML, CSS, and JavaScript, ensuring smooth navigation and enhanced user experience.

Portfolio Website — “Arush Rai” (Personal Site)
Tools: , React.js, HTML, CSS(glassmorphism + soft gradients), JavaScript

- Built a responsive portfolio with a dark + neon aesthetic, glassmorphism, and soft gradients.

- Took design guidance from AI (Emergent) to improve UI layout and modern styling
- Added smooth page navigation and a clean structure for easy user experience

Training

Data Structures & Algorithms (Java) — Cypher School

- Trained on core DSA concepts: arrays, linked lists, stacks, queues, trees, graphs, sorting and searching
- Practiced problem-solving and optimized solutions using Java
- Gained understanding of time and space complexity

Certifications

- Responsive Web Design — freeCodeCamp (2023)
- Bits and Bytes of Computer Networking — Google (2024)
- Fundamentals of Network Communication — University of Colorado (2024)
- Hardware and Operating Systems — IBM (2024)
- DSA using Java — iAmNeo EdTech (Aug 2024 – Dec 2024)
- Java Programming — iAmNeo EdTech (Jan 2025 – May 2025)
- Object-Oriented Programming — iAmNeo EdTech (Aug 2024 – Dec 2024)

Achievement

- Secured 3rd place in Code-A-Haunt Hackathon 2024 for developing an interactive cultural website showcasing India's heritage and diversity March 24
- Awarded CTO of IGNITE LPU, leading digital initiatives and tech execution on campus.

Extra Curricular

- Organized Cricket & Esports tournaments involving 200+ participants
- Engaged 500+ students across multiple events through outreach, live streaming support, and 20+ promotional graphics/videos that significantly increased participation.
- Mentored peers during event execution and technical problem-solving.
- Contributed to social impact campaigns supporting homeless women
- Helped in content creation and awareness initiatives through social media

Education

B.Tech in CSE | Nov 2025
LOVELY PROFESSIONAL UNIVERSITY, Punjab | CGPA: 7.8
Higher Secondary | Apr 2023
AATMDEEP VIDYALAYA, Gorakhpur, Uttar Pradesh | CGPA: 6.8
Secondary School | Apr 2021
HP CHILDREN'S ACADEMY, Gorakhpur, Uttar Pradesh | CGPA: 8.6
